## 2 OUR COMPANY

---

### 2.1 BACKGROUND AND HISTORY

SQT CONSTRUCTION AND CIVILS CC T/S SQT CIVILS (SQT Civils) was established in 2007. The company is 100% owned by Previously Disadvantaged Individuals.

SQT Civils has the will and capacity to effectively develop not only in the technical field but also in social transformation of the Republic of South Africa has disadvantaged communities. SQT Civils's insistence on quality of service, hard work, and responsiveness to client needs remains the company credo and has led to its success in a competitive industry. The company's ability to address changing conditions and demands, find and serve diverse markets, and expand its services has resulted in the company to growing far beyond its founder's dreams.

The construction industry is filled with buzzwords and phrases: "We want to do things differently," or "We have to be innovative," or "We need more teamwork and collaboration!" SQT Civils transforms these vague concepts into concrete ways of doing business. The company uses sustainable systems and practices while implementing new and better approaches to deliver client projects.

It is striking how much SQT Civils has changed over the years, and how much it has stayed the same. "A promise made is a promise delivered," rings as true today as it did in 2007. By investing in leading-edge technology, updating and refining processes, SQT Civils has adapted to the needs of a changing world, and risen to meet its challenges.
